Michael A. Weintraub, MD

michaelweintraubmd.com

Current Appointment

New York University Langone Hospital, New York, NY *September 2022 – present*
New York University Grossman School of Medicine
Clinical Assistant Professor of Medicine, Department of Endocrinology, Diabetes, Metabolism and Obesity

Education and Training

New York Presbyterian Hospital – Cornell, New York, NY *July 2020 – June 2022*
Cornell Weight Control Center
Memorial Sloan Kettering Cancer Center
Hospital for Special Surgery
Clinical Fellow, Department of Endocrinology, Diabetes, Metabolism, and Obesity

Thomas Jefferson University Hospital, Philadelphia, PA *July 2017 – June 2020*
Internal Medicine Resident

Rutgers Robert Wood Johnson Medical School, New Brunswick, NJ *August 2013 – May 2017*
M.D., Class of 2017

University of Pennsylvania, Philadelphia, PA *September 2007 – May 2011*
Roy and Diana Vagelos Life Science and Management Dual Degree Program
Bachelor of Arts, Biology with distinction, College of Arts and Sciences
Bachelor of Science in Economics, Health Care Management and Policy, Wharton School

Certification/Licensure

ABIM Internal Medicine Certification, 2020
ABIM Endocrinology, Diabetes & Metabolism Certification, 2022
American Board of Obesity Medicine Diplomate, 2023
NY State Medical License #316049

Work Experience

ClearView Healthcare Partners, Boston, MA *August 2011 – May 2013*
Senior Analyst
In this boutique-consulting firm for life science companies, research focused on a number of projects evaluating the potential commercial opportunity of therapeutics in the diabetes, cardiac arrhythmias, schizophrenia, oncology, infectious disease, and renal subspecialties. Interviewed physicians, patients and reimbursement experts, and reviewed clinical, sales and regulatory data. Produced revenue forecast models.

Wharton Small Business Development Center, Philadelphia, PA *June 2010 – August 2010*
Undergraduate Consultant
Consultant to local biotech and medical device startups in the life science industry.

Research Experience

Cornell Comprehensive Weight Control Center, New York, NY *July 2021 – January 2023*

Louis J. Aronne, MD; Alpana Shukla, MD
Conducted retrospective review of the long-term medical management of patients of the Cornell Comprehensive Weight Control Center with anti-obesity medications.

Memorial Sloan Kettering Cancer Center, New York, NY *July 2021 – June 2022*
James Flory, MD
Conducted retrospective review of management of hyperglycemia induced by targeted chemotherapeutic agents.

Vanderbilt School of Medicine, Nashville, TN *June 2014 – August 2014*
William Russell, MD
Student Research Training Program. Investigated the role of ERBB3 tyrosine kinase receptor in hepatocellular carcinogenesis.
Presented posters August 2014 at NIDDK Medical Student Research Symposium, Nashville, TN, and April 2015 at American Society for Clinical Investigation and Association of American Physicians National Meeting, Chicago, IL.

Children's Hospital of Philadelphia, Philadelphia, PA *February 2008 – December 2010*
Katherine A. High, MD; Jonathan Finn, PhD
Independent Study. Conducted gene transfer research with plasmids in human hepatocytes to develop a novel therapeutic for the treatment of hemophilia B.

Lankenau Institute for Medical Research, Philadelphia, PA *June 2010 – August 2010*
Michael Ezekowitz, MB ChB
Clinical Research Intern. Screened atrial fibrillation patients for enrollment in phase 3 and phase 4 clinical trials.

Boston Biomedical Research Institute, Watertown, MA *June 2009 – August 2009*
Kent Nybakken, PhD
Undergraduate Research Opportunity Core Summer Intern. Induced and isolated a fusion protein to investigate the hedgehog signaling pathway at the molecular level.

8. **Weintraub MA**, Sunderram J, Kipen H, et al. Chronic rhinosinusitis is an independent risk factor for obstructive sleep apnea in World Trade Center responders. Poster presented at: American Thoracic Society National Meeting; 2017 May; Washington, DC.
9. Papoosha M, Wattamwar K, **Weintraub MA**, et al. Possible drug-induced Stevens-Johnson syndrome vs. erythema multiforme in a patient taking oxcarbazepine and quetiapine. Poster presented at: Meridian Health Research Day; 2016 Jun; Neptune, NJ.
10. **Weintraub MA**, Zhang X, Abbasi A, Scheving LA, Russell WE. Disruption of hepatocellular ERBB3 expression suppresses diethylnitrosamine-induced hepatocellular carcinogenesis. Poster presented at: American Society for Clinical Investigation and Association of American Physicians National Meeting; 2015 Apr; Chicago, IL.
11. **Weintraub MA**, Finn J, High KA. Blocking viral vector antigen presentation using TAP inhibitors. Poster presented at: Penn Symposium for Undergraduate Research in Biology; 2011 Apr; Philadelphia, PA.

Oral Presentations

1. Girgis MS, Almandoz JP, **Weintraub MA**, Chang ET, Saleem N, Muntner P, Dluzniewski PJ. Weight change after GLP-1 discontinuation in US patients living with overweight/obesity or diabetes. Oral presentation at: Obesity Week; 2025 Nov; Atlanta, GA.
2. **Weintraub MA**, Andre C, D'Angelo D, Tchang B, Aronne L, Shukla A. Long-term weight loss maintenance with obesity pharmacotherapy: A 5-year retrospective study. Oral presentation at: ENDO National Meeting; 2022 Jun; Atlanta, GA.
3. **Weintraub MA**. A challenging case of Cushing's disease. Oral presentation at: The Pituitary Society's Pituitary Master Course – Essentials of Pituitary Diseases for Fellows-in-Training; 2022 Mar.
4. **Weintraub MA**. A case of Graves' disease after the SARS-CoV-2 vaccine. Oral presentation at: New York Thyroid Club Meeting; 2021 Nov.
5. **Weintraub MA**, Collins MT, Bates DD, Farooki A. A patient with skeletal fluorosis due to inhalant abuse. Oral presentation at: American Society for Bone and Mineral Research Annual Meeting Endocrine Fellows Forum; 2021 Sep (virtual).
6. **Weintraub MA**. Case presentation of a TSH-secreting pituitary adenoma. Oral presentation at: The Pituitary Society's Pituitary Master Course – Essentials of Pituitary Diseases for Fellows-in-Training; 2021 Apr.
7. **Weintraub MA**. Case presentation in symposium "Pharmacogenomic and genetic variation in different geographic regions." Oral presentation at: American College of Clinical Pharmacology Annual Meeting; 2010 Sep; Baltimore, MD. Case for discussion by panel about genetic testing and implications of genetic variation across populations in the diagnosis of disease.

Teaching Activities

Undergraduate Medical Education (UME)

NYU Grossman School of Medicine, Medical Student Endocrinology Lecture Series:

1. **Pituitary physiology**. Annual lecture, 2023 – 2026 (delivered 2023 Mar, 2024 Feb, 2025 Apr, 2026 Mar).
2. **Obesity: Metabolic complications**. 2026 Mar.

Graduate Medical Education (GME)

NYU Endocrinology Fellowship Lecture:

1. **Obesity: Diagnosis and management**. 2026 Apr.

Weill Cornell Obesity Fellowship Lecture Series:

1. **Type 2 diabetes management: A weight-centric and cardioprotective approach**. Annual lecture, 2023 – 2025 (delivered 2023 Jan, 2024 Mar, 2025 Apr).

Curriculum & Module Development

1. **Endocrine Society's Obesity Fellows Program, Keynote Lecture: The state of obesity medicine**. Annual lecture, 2023 – 2026 (delivered 2023 Oct, 2024 Sep, 2025 Sep, 2026 Sep). Ask the Experts faculty panelist, 2026 Sep.
2. **Endocrine Society's Obesity Fellows Program Online Curriculum**. 2023 Oct. Genetic and environmental pathophysiology of obesity.
3. **American Association of Clinical Endocrinology Obesity Learning Modules**. 2024. Developed online learning module on the evaluation and treatment of endocrine comorbidities of obesity.

Invited Presentations

National & International Conferences

1. American Society of Nutrition – Annual Meeting, Washington, DC. 2026 Jul. GLP-1 therapies in Older Adults.
2. The Obesity Society Grand Rounds, Virtual. 2026 Jul. Beyond the Trials: Translating Obesity Pharmacotherapy Evidence into Daily Practice.
3. ENDO 2026 – Endocrine Society Annual Meeting, Chicago, IL. 2026 Jun. Amylin signaling in obesity: Physiologic drivers of satiety and energy regulation.
4. Columbia–Cornell Obesity Course. 2026 May. Obesity-related cardiovascular and renal disease: Risks and care strategies.
5. NYU 6th Annual North American Cardiometabolic Risk in Inflammatory Disease Conference. 2026 Apr. Targeting cardiometabolic inflammation in obesity and type 2 diabetes with GLP-1 based therapies.
6. New York Sleep Conference: Cutting Edge Topics in Sleep Medicine. 2025 Apr. GLP-1 receptor agonists and sleep medicine.
7. Cornell Qatar – Tackling Obesity: Multidisciplinary Approaches for Comprehensive Care. 2025 Jan. Newer generation anti-obesity medications: Impact on cardiovascular and renal health.
8. NYU Dietary and Lifestyle Strategies for Cardiovascular Risk Reduction Conference. 2024 Nov. GLP-1 medications: Is there anything they can't do?
9. NYU Endocrinology Updates CME Conference. 2024 Mar. Updates in the pharmacologic treatment of obesity.

Visiting Professorships & External Grand Rounds

1. St. John's Episcopal Hospital, Family Medicine Grand Rounds. 2025 Aug. Update on the pharmacologic management of obesity.
2. St. John's Episcopal Hospital, Internal Medicine Grand Rounds. 2024 Nov. Update on the pharmacologic management of obesity.
3. University of Rochester Primary Care Grand Rounds. 2024 Jul. How to successfully manage obesity in the primary care setting.
4. Maniya Health Primary Care Group Grand Rounds. 2024 May. Pharmacologic treatment strategies of obesity.

Institutional & Departmental Lectures

1. NYU Langone SciCafé: Beyond GLP-1s, Keynote. 2026 Sep. The view from the clinic: The present and future of obesity pharmacotherapy.
2. NYU Langone Endocrinology Grand Rounds. 2023 Feb. Long-term weight loss maintenance with obesity pharmacotherapy.
3. Weill Cornell, Memorial Sloan Kettering Endocrinology, and Hospital for Special Surgery Joint Grand Rounds. 2022 May. Long-term weight loss maintenance with anti-obesity medications.
4. Weill Cornell, Memorial Sloan Kettering Endocrinology, and Hospital for Special Surgery Joint Grand Rounds. 2021 Jun. Graves' disease after the SARS-CoV-2 vaccine.

Community & Public Education

1. Lockdown University. 2026 Jun. The Weight-Loss Revolution: Understanding GLP-1s.
2. NYU Preventative Cardiology Heart Health Lecture Series. 2024 Sep. Top 5 questions about weight loss medications: What you need to know.

Leadership Experience

American Diabetes Association Greater NJ/NY Executive Leadership Team 2026 – present
Member of the leadership team to direct the programming for State of Diabetes: New York City, October 2026.

Obesity National Meeting Leader, American Association of Clinical Endocrinology 2025 – present
Develops the clinical congress portion of the Annual Meeting, including selecting speakers and determining topics for general sessions, workshops, and satellite symposia.

Editorial Board Member, Metabolic Care Today 2025 – present
Editor of Metabolic Care Today, which provides news, commentary, and updates to inform healthcare providers on the latest research and best clinical practices in the metabolic disorder space.

Endocrine Society Obesity Taskforce Member 2025 – present
Guides development of the Endocrine Society's Obesity Strategy Initiative and the development of the Society's Center on Obesity.

New England Journal of Medicine Group Obesity Care Learning Modules 2025 – present
Faculty Director of grant-funded obesity program series: Advancing Obesity Care: Leveraging Evidence-Based Medicine and Shared Decision-Making for Effective Weight Management.

Endocrine Society Clinical Practice Guideline Committee 2024 – present
Co-Chair of the "Pharmacological Management of Obesity" Clinical Practice Guideline. We are in the process of updating the latest guidelines put out by the Endocrine Society.

Obesity Multidisciplinary Conference 2024 – present
Leads a monthly conference within the NYU department of endocrinology centered around how to optimally care for individuals with obesity.

American Board of Obesity Item Writing Committee 2024 – 2026
Write and edit questions for the American Board of Obesity credentialing exam.

Multidisciplinary Adrenal Case Conference 2023 – 2026
Lead endocrinologist on the tumor board that meets monthly to discuss multidisciplinary management of complex adrenal cases.

Small Group Discussion Leader 2022
Discusses diabetes and thyroid cases with 3rd and 4th year Cornell medical students as part of their Primary Care clerkship curriculum.

The Medicine Forum, Co Editor-in-Chief 2019 – 2020

Reviewed original research and case reports for this peer-reviewed annual publication of scholarly works produced by Jefferson Internal Medicine residents.

Jefferson Resident Wellness Committee, Committee Member 2018 – 2020
Focused on creating a wellness culture to reduce the risk of burnout among fellow trainees.

Resident Medical Education Pathway Member 2018 – 2020
Pathway provides didactics on educational theory coupled with hands-on experience through giving lectures and receiving formative feedback.

RWJ Student Government Association, Executive Board and Treasurer 2014 – 2017
The umbrella organization overseeing RWJ student organizations links the students with the school faculty and alumni. As treasurer, allocated funds to student organizations and managed funding for school-wide events.

Internal Medicine Interest Group, Co-President 2013 – 2015
Educated medical students on specialties within internal medicine. Under our leadership, launched a new resident and subspecialist shadowing program and doubled RWJ student membership to the American College of Physicians.

Penn Bioethics Journal, Editor-in-Chief 2009 – 2011
The Penn Bioethics Journal is a peer-reviewed semiannual publication that features contributions of students across the country to the field of bioethics. As Editor-in-Chief, with guidance from bioethicist Art Caplan, PhD, led the review process and managed 50 editors. During my two-year tenure, my team doubled the number of article submissions and editors while increasing the journal's quality.

Wharton Undergraduate Healthcare Club, Founding Member and Co-President 2009 – 2011
Co-founded Wharton's first health care club to provide undergraduates exposure to the breadth of the health care industry. As co-president, organized speaker events with physicians, hospital administrators, and life science industry leaders, and expanded the club to over 300 members.

Mentorship

1. **Christian Victoria** (2026 – present) — Doctoral candidate in Epidemiology, NYU School of Global Public Health. PhD thesis advisor; dissertation centered on real-world uptake and effectiveness of GLP-1 receptor agonists in an urban population with type 2 diabetes. *Outcomes: in progress.*
2. **Ariel Li, MD** (2025 – present) — 2nd-year Endocrinology Fellow, NYU Langone Health. Research mentor; ongoing project on the impact of GLP-1 receptor agonists on levothyroxine requirements in adults with obesity and hypothyroidism. *Outcomes: in progress.*
3. **Angeline Salas** (2021 – 2022) — Then medical student at Weill Cornell; now medical student at Banner-University College of Medicine–Tucson. Research mentor; investigation of the effect of concurrent psychotropic medication use on long-term medical weight loss outcomes. *Outcome: co-author on poster, Obesity Society 40th Annual Scientific Meeting (ObesityWeek), San Diego, CA, 2022.*
4. **Clarissa C. Andre, MD** (2021 – 2022) — Then Internal Medicine resident at Weill Cornell; now Clinical Assistant Professor of Internal Medicine, NYU Langone Health. Co-investigator on the five-year weight loss maintenance with obesity pharmacotherapy retrospective study. *Outcome: co-author, J Clin Endocrinol Metab. 2023;108(9):e832-e841.*
